

Center Post Mount

The **EZ Claw Center Post Mount** is the best option to support multiple hoses and heavy hydraulic lines.

Features:

- **Laser-cut and CNC bent** for precision and accuracy
- Clear zinc plated and then powder coated for **optimal corrosion resistance**
- **Bolted underneath the frame** rail using 13.5" bolts
- **No need to drill holes**
- **Mounting hardware** included
- Stands **6' tall**

Advantages:

- Accepts up to four EZ Claw Line Savers
- Supports up to 160 lbs. of Line Savers, hoses and accessories
- Holds lines significantly higher than traditional pogo sticks and springs
- Can be used for any model of truck
- Mounting provisions for additional accessories, including lights, alarms, cameras, toolboxes, etc.

When to use:

- Truck applications with **air, electric and hydraulic lines and no headache rack** installed on the tractor
- When you have room and **don't want to drill holes** into the back of your cab
- Trucks that have **wet kits and longer wheelbases**
- When you want to **mount cameras, lights, alarms and other accessories**

We've done the homework so you can pass the test.
